Omar Ashraf.Othman

Summary

Frontend Developer with 2.5+ years of professional experience building fast, responsive, and scalable web applications with React.js, Next.js, and TypeScript, plus hands-on backend development with Node.js, Express.js, and MongoDB. Experienced in multi-tenant SaaS e-commerce platforms, REST API design and integration, JWT authentication, and performance optimization. Committed to clean, modular code, UI/UX best practices, and Agile teamwork that delivers solutions aligned with business goals and a better user experience.

Skills

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, SASS, Bootstrap
- **State Management and Tooling:** Redux, Zustand, Vite, Turborepo, Axios
- **Backend:** Node.js, Express.js, RESTful APIs, MongoDB, Mongoose, JWT Authentication, bcrypt, MVC Architecture
- **Tools:** Git, GitHub, Postman, Figma, Linux
- **Best Practices:** Responsive Design, Cross-Browser Compatibility, SEO Optimization, Accessibility Standards (WCAG), Strongly Typed Code, Design Patterns, Code Modularity, Reusability, Agile, Problem Solving

Professional Experience

Frontend Developer (Mid Level), U-First

06/2026 – Present | maadi

Building a multi-tenant SaaS e-commerce platform using Next.js, TypeScript, and Turborepo, working across four applications with shared architecture, reusable components, and dynamic theming.

Front End Developer, Dhaiban

10/2025 – 04/2026 | Giza, egypt

- **Translated** UI/UX designs into responsive, high-quality frontend interfaces.
- Developed scalable frontend architecture for a **multi-vendor marketplace**.
- Implemented dynamic products, pricing logic, and dashboard features.
- Collaborated within an **Agile** team to deliver features on time.

web developer, freelancer

01/2024 – 09/2025

Communicating with clients to deliver tailored technical solutions by building custom web applications using **Next.js** and **PHP**.

software engineer, Fawry Plus

07/2023 – 10/2023 | smart village, egypt

- **Analyzed and upgraded** an outdated system, improving workflow efficiency and reliability.
- **Developed** a custom **Tafgeet website** using PHP, MySQL, and React, enhancing operations across **Fawry Plus** branches.
- **Collaborated** with cross-functional teams to ensure smooth implementation and alignment with business goals.

Projects

Alnahari E-commerce | Next.js, TypeScript

- Built a luxury e-commerce platform for customized Apple products, featuring real-time 3D visualization, premium gold modifications, and advanced catalog management.

Accept - Multi-Tenant SaaS E-commerce Platform | Next.js, TypeScript, Turborepo

Scalable platform that lets businesses launch and manage online stores, with advanced administration, vendor management, subscription plans, analytics, and payment integrations.

Authentication REST API | Node.js, Express.js, MongoDB, JWT

- Built an MVC authentication API with Mongoose models, bcrypt password hashing, short-lived JWT access tokens, HTTP-only refresh cookies, and protected routes.
- Added a lightweight web interface to demonstrate registration, login, and access to protected pages.

E-commerce Admin Dashboard | Next.js, TypeScript

- Developed a multi-tenant SaaS dashboard with dynamic theming, authentication, role-based experiences, and a scalable component architecture.

Education

Bachelor's degree in Computer Science, Modern Academy

09/2020 – 06/2024 | maadi, egypt
